

Struggling with small text?

If details are becoming blurry, it might be presbyopia. It happens to nearly everyone in their 40s and impacts the ability to see things up close – especially in low light.

Complete this form to determine if you might be presbyopic.

Presbyopia Evaluation Form

	YES	NO
Do you find that you need more light to see small text?	<input type="radio"/>	<input type="radio"/>
Are you pushing your phone, tablet, reading material farther away from your eyes in order to be able to read them?	<input type="radio"/>	<input type="radio"/>
Do you feel visual strain or blur, lose concentration, or get headaches from close work, eg. working on a computer?	<input type="radio"/>	<input type="radio"/>
Have you ever worn a pair of drug store readers?	<input type="radio"/>	<input type="radio"/>
Are you using progressive lenses, bifocals, and/or readers and would like the option to be eyeglass-free for certain activities?	<input type="radio"/>	<input type="radio"/>
Would you be interested in a contact lens solution that corrects for both distance AND near vision if the doctor felt you were a candidate?	<input type="radio"/>	<input type="radio"/>
Year of birth? _____		

If you answered yes to any of these questions, be sure to ask your eye doctor if multifocal contact lenses are an option for you.

ACUVUE
MULTIFOCAL
WITH PUPIL OPTIMIZED DESIGN

Important information for contact lens wearers: ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye doctor. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye doctor immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-843-2020, or visit www.acuvue.com.
